

## Suzanne Townsend, Veterinary Clinic Manager

Suzanne Townsend joined Animal Humane's team in March 2011. She is a Registered Veterinary Technician, having graduated from Columbus State Community College in 1990. Most of her last 21 years have been spent working on small animals, although she has worked with cattle, horses, goats, sheep, and pigs. As the clinic manager she is a busy lady, keeping up with the patients, clients and staff of our veterinary clinic. Originally from Ohio, Suzanne moved to Kirtland Air Force Base in 1990. After 20 years as a military family, she and her husband, son and daughter have decided to call New Mexico home. Living in

the countryside outside of Albuquerque allows her to raise chickens and pigs for showing through FFA with her children. Gardening, scrapbooking and listening to jazz are a few of Suzanne's favorite things to do. Although with 3 dogs, 2 cats, 12 chickens, 1 duck and 2 pigs she is not left with much spare time!
