

Recommended Veterinary Clinics

When contacting a clinic about follow-up care for your Working Cat, please be sure to let them know about your cat's specific medical or behavioral needs. All clinics require cats to arrive inside carriers and may have additional requests, such as requiring that your cat refrain from food or water prior to their appointment in case sedation is needed. We recommend that you ask the clinic their recommendations for your arrival and about any potential extra handling fees before bringing in your Working Cat to be seen.
